

AutoViri™ Software

**Productivity.
Accuracy.
Savings.**

AutoViri Software is a robust, yet simple, solution designed to help mailers of any size.

- **Be more productive and proactive**
- **Avoid unnecessary USPS Mailer Scorecard assessments**
- **Take advantage of the new Seamless Acceptance incentive**

We make it easy to get started with a **free implementation expert.**

What is AutoViri Software?

Cloud-based AutoViri Software is the only print-to-mail solution available that connects your physical and digital workflows to make your mail operations faster and more accurate and save you money.

End Communication Headaches and Stop Playing Catch-Up

AutoViri maximizes your efficiency by giving you real-time, virtual visibility of your production – without changing a thing about the way you operate.

- Get your team on the same page every day with simple dashboards
- Monitor production from anywhere 24/7
- Stay ahead of Mailer Scorecard errors before jobs leave the building

Made for Your Mail Operations

AutoViri Software puts the power of proactivity in the hands of mailers of any size with clear, actionable information that helps you streamline your operations.

- See real-time production metrics
- Capture a complete audit trail
- Pinpoint operational trouble spots and retrain or correct your team

Start Now for a More Profitable and Productive Year

- Fast, easy activation and setup
