FOR IMMEDIATE RELEASE

CapStone Technologies named a Cognex Logistics Partner Integrator
Certification recognizes CapStone's commitment to innovation and service.

Lincoln, Neb., October 15, 2020 – CapStone Technologies has been certified as a Cognex Logistics Partner Integrator, signifying that CapStone has met Cognex's meticulous partner requirements for quality.

As a Logistics Partner Integrator, CapStone will install, commission and support vision systems used by Cognex cameras. All companies that partner with Cognex have to undergo comprehensive training to ensure they deliver innovative solutions with high installation, deployment and service standards. Having completed that training, the company has already begun working on Cognex installations across the United States.

"Becoming a Cognex partner is an exciting designation," said Robb Hagen, managing partner and director of project services for CapStone. "Cognex certification recognizes the expertise of our team and the significant training we have undertaken."

About Cognex Corporation
Cognex Corporation designs, develops, manufactures, and markets a range of products that incorporate sophisticated machine vision technology that gives them the ability to "see." Cognex products include barcode readers, machine vision sensors, and machine vision systems that are used in factories, warehouses, and distribution centers around the world to guide, gauge, inspect, identify, and assure the quality of items during the manufacturing and distribution process. Cognex is the world's leader in the machine vision industry, having shipped more than 1 million vision-based products, representing over $4 billion in cumulative revenue, since the company's founding in 1981. Headquartered in Natick, Massachusetts, USA, Cognex has regional offices and distributors located throughout the Americas, Europe, and Asia. For details visit Cognex online at www.cognex.com.
